

What's New in Pediatric Palliative Care

Did you know that there are CAPC pediatric palliative care tools to support your program's development?

Pediatric Palliative Care Survey and Reports through the National Palliative Care Registry™

Submit your program data at registry.capc.org. You will receive both summary reports and comparative reports. The Registry is FREE and open to all programs.

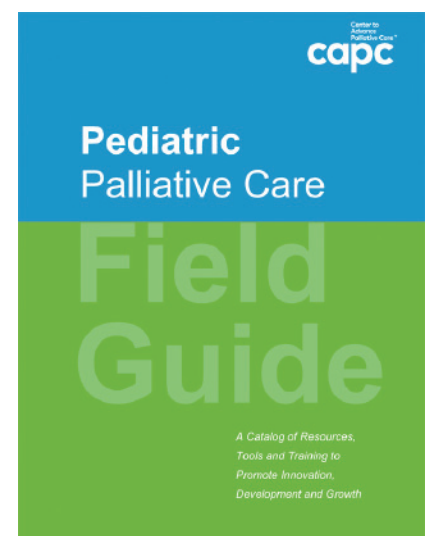

The Pediatric Palliative Care Field Guide

Comprehensive resource that includes a catalog of program development and support services for field research and an updated value statement to help programs make the case for pediatric palliative care resources.

Download it at capc.org/topics/pediatric-palliative-care.

The CAPC Pediatric Palliative Care Toolkit

Developed by leaders from programs across the country, the Toolkit is a one-stop collection of new online tools and technical assistance for pediatric palliative care programs. Available to members in CAPC Central™.

For more information about CAPC resources for pediatric programs, email Robin Fail at robin.fail@mssm.edu. Not yet a member? Visit capc.org/membership, call us at 212-201-2674 or email us at membership@capc.org.
